

-: HTML Forms :-

forms?

structure

(to collect user input data)

A hand-drawn diagram of a login form. It consists of a rectangular box containing two input fields. The first input field is preceded by the text 'login ID'. The second input field is preceded by the text 'password'. Below the second input field is a button labeled 'submit'.

Tags :-

→ `<form>` → (to create HTML form for user input)

→ `<input>` → many forms of user data

→ `<label>` → create label/screen reader text

A hand-drawn diagram of a login form, similar to the one above, but with arrows pointing to the HTML tags used. An arrow points from the text 'login ID:' to the label `<label>`. Another arrow points from the input field to the tag `<input>`.

Form Element :-

- input
- label
- select (drop-down menu)
- option
- button
- textarea (multi-line input)
- fieldset (to group multiple elements)
- legend.
